

GLOBAL TASK FORCE ON CHOLERA CONTROL

5th Meeting of the Global Task Force for Cholera Control (GTFCC) Working Group on Oral Cholera Vaccine AGENDA

Objectives:

The OCV WG meeting will be an opportunity to get an update on the implementation of the *Ending Cholera Roadmap* in countries. More specifically the proposed objectives and topics for discussion are as follows:

- To provide an update on the implementation of the *Ending Cholera Roadmap* and integration of OCV in cholera control plans including:
 - Perspectives from participating countries
 - Lessons learnt and way forward to engage countries in cholera control
- To discuss perspectives on OCV use moving forward including:
 - Outcomes of the Gavi Vaccine Investment Strategy and long-term support for OCV
 - Update on supply availability for 2019 and beyond
 - GTFCC support to countries and OCV use – follow up from the 2018 GTFCC annual meeting and discussions on the process to access OCV
 - Standard approach for M&E
- To review and validate the OCV research agenda:
 - Feedback from the GTFCC research agenda meeting and cholera research priorities – updates from other GTFCC WGs
 - Update from partners on research projects
 - Validation of the OCV WG research priorities

Dates: 5 and 6 December 2018

Location: Veyrier du Lac, France

Venue: Les Pensières Conférence Centre, 55 Route d'Annecy, 74290 Veyrier-du-Lac, France
