

GLOBAL TASK FORCE ON  
**CHOLERA CONTROL**

**Kate Alberti for  
Dr Iqbal Hossain – Chair of the Case Management WG  
Update from the Case Management WG  
GTFCC Annual Meeting 3 June 2019**

# ACHIEVEMENTS

- Successful meeting held on 5-6 November 2019
- Agreement on protocol for treatment of children with cholera and severe malnutrition in collaboration with nutrition colleagues
- Contribution to Technical Note on infection prevention and control in cholera treatment centres, collaboration with WASH WG
- Contributions to the development of the NCP Framework
- Contributions to Outbreak Manual
- Catalyst for the app development

GLOBAL TASK FORCE ON  
**CHOLERA CONTROL**

FEBRUARY 2019

## CHOLERA OUTBREAK RESPONSE FIELD MANUAL

# AREAS OF CONTINUING WORK

- Development of field tools, job aids and training – ensuring documents are clear, unambiguous and available for all
- Continuing work on the app – sub group working on this to advise on most useful tools
- Community response teams – role of health workers, impact on transmission

# RESEARCH PRIORITIES

- Treatment of cholera in children with SAM – both treatment and operational aspects should be addressed
- Treatment of cholera in pregnancy
- Use of targeted chemoprophylaxis impact on transmission vs context of increasing global anti-microbial resistance

# Thank you

Together we can
