

GLOBAL TASK FORCE ON
CHOLERA CONTROL

ETHIOPIA'S COMMITMENT TO END CHOLERA

Mr. Aschalew Abayneh
Deputy Director General
Ethiopian Public Health Institute
June, 2020

FROM COMMITMENTS TO ACTIONS: ETHIOPIA'S EFFORTS TO END CHOLERA

- Ethiopia committed to the Global Roadmap for the control and elimination of cholera at the 71st World Health Assembly in 2018
- Since then Ethiopia has:
 - Conducted hotspot analysis for OCV administration
 - Requested and secured OCV and conducted campaigns
 - Held a high-level advocacy workshop on National Cholera Plan (NCP)
 - Drafted a multi-sectoral five-year NCP

IMPLEMENTATION OF OCV CAMPAIGNS

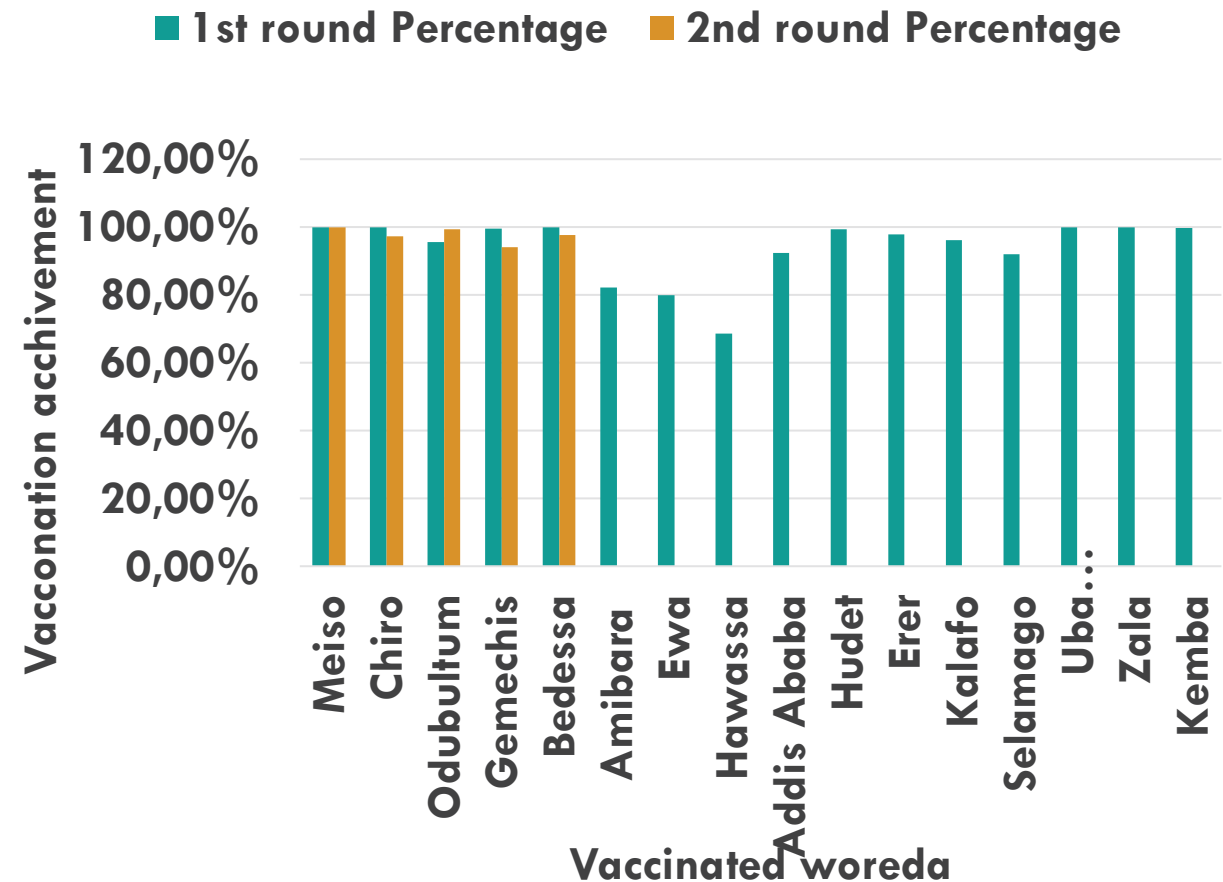

- Initial hotspot analysis report based on GTFCC tool & OCV Response Plan developed & official request submitted to GTFCC
- A total of 923,665 doses of OVC
 - 778,665 from ICG
 - 145,000 from the Korean Government

OCV CAMPAIGN ACHIEVEMENT IN ETHIOPIA 2019-2020

- At risk population from five region(Oromia, Somali, Afar, SNNPR and Addis Ababa) vaccinated for OCV
- 99.5 % (919,047 OCV vials) of the OCV was utilized for campaigns in Ethiopia.
- Five woredas received both first and second round vaccinations
- Remaining 11 woredas, including Addis Ababa City Administration, received first dose only
- The outcome of OCV campaign in woreda receiving two round very successful.

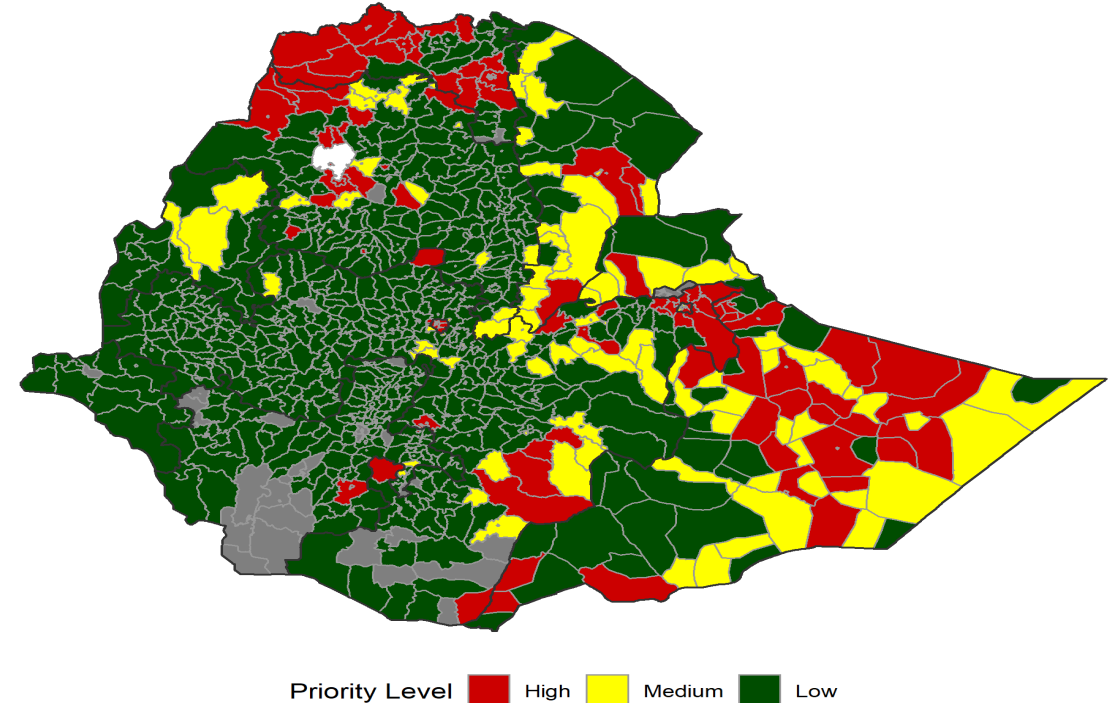

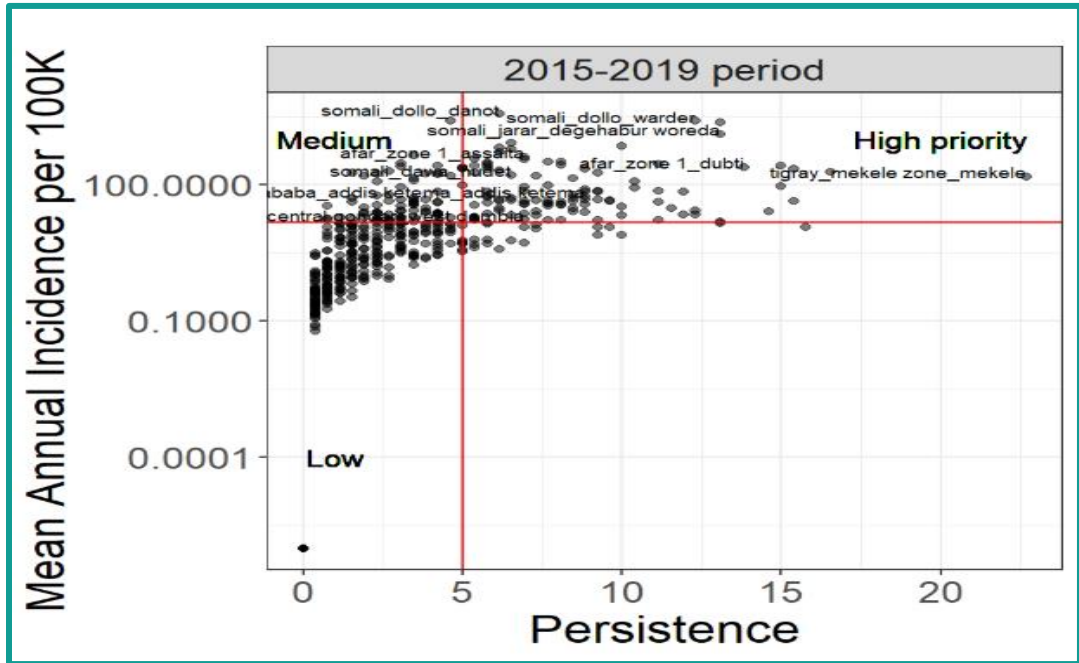

❖ *The outbreak is controlled with in Short period of time*

1

- # F

Period	Priority	% Population	# Woredas
2015-2019 period	High	15.060917	104
2015-2019 period	Medium	5.172048	78
2015-2019 period	Low	79.767034	693

* Used to categorize the districts among the highest risk for cholera in sub-Saharan Africa in [Lessler and Moore et al. \(2018\) Lancet](#).

DEVELOPMENT OF A NATIONAL CHOLERA CONTROL PLAN

- Held high-level briefing on the Global Road Map and gained approval to develop the Ethiopia Cholera Elimination Plan
- Then Cholera hotspot districts were identified in the country where interventions will be focusing.
- Series of multi-sectoral workshops conducted to develop the plan
- Draft multi-sectoral national cholera elimination plan was prepared and is ready for IRP

Multi-Sectoral Cholera Elimination Plan
Ethiopia

2020-2025

Thank you

Together we can
