Saving lives, changing minds.

 International Federation
of Red Cross and Red Crescent Societies

One
WASH

IFRC/RCRC response to cholera to date:

Response: Interventions during outbreaks

- Prevention activities community level: household level water treatment, emergency HP and SBCC
- Community case management and surveillance: ORS and ORP, surveillance
- Clinical case management: CTUs/CTC, IPC support and WASH facilities
- National, Regional and global capacity (NDRT, RDRT, global surge & ERUs)

Preparedness for response:

- Preparedness/contingency plans, training of RCRC National Societies

Prevention/mitigation of risk

- Long term WASH and health programming in high risk areas (GWSI, CBHFA)

Partnerships: Often as auxiliary to Government efforts and/or in support or partnership with other actors (MSF, UNICEF etc.)

Coordination: GTFCC, OCV task force and regional/national cholera platforms, Global Health and WASH Clusters.

One WASH

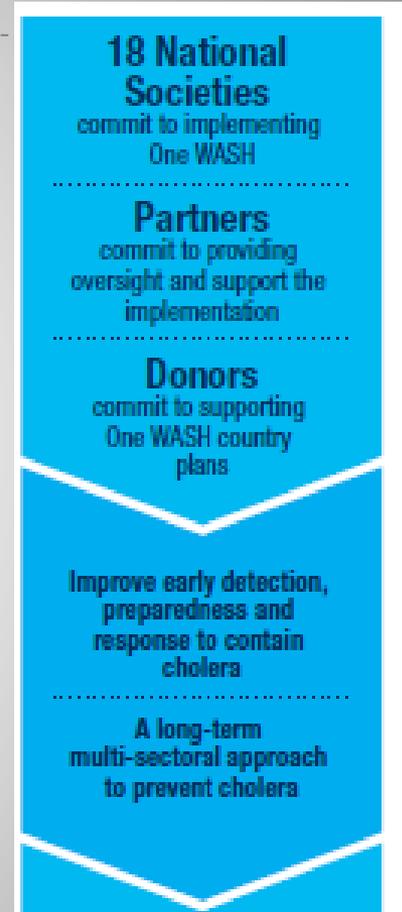

A renewed IFRC emphasis on cholera control

One WASH is a recently established Global integrated approach to combine health; WASH; Nutrition; water for livestock and environmental sanitation in cholera 'high risk' areas.

Initially **One WASH** focuses on **18 cholera-affected countries** where National Red Cross and Red Crescent Societies are committed to the elimination of the disease.

One WASH focuses on two main actions that are closely interlinked and operate in full alignment with the **GTFCC cholera road map**, the IFRC Global Water and Sanitation Initiative & IFRC cholera strategy.

1. **Improve preparedness, early detection, and response to contain cholera outbreaks**
2. **A long-term integrated WASH/Health approach to prevent cholera**

One
WASH

Implementing One WASH

1. Improve preparedness, early detection and response to contain cholera outbreaks by:

- Preparedness/contingency plans, SOPs, trained volunteers/staff, simulations, stocks
- Community based surveillance for early detection and monitoring
- Community case management for early treatment including referrals, ORS, ORPs
- Prevention activities such as water treatment, hygiene and health promotion
- Support to OCV campaigns

Improve early detection,
preparedness and
response to contain
cholera

A long-term
multi-sectoral approach
to prevent cholera

By 2030:

Reach
18 countries
to eliminate cholera in
rural and urban settings

A minimum
5.5 million people
in high-risk areas
supported

One
WASH

Implementing One WASH

2. A long-term integrated WASH/Health approach to prevent cholera

- Sustainable long-term water, sanitation and hygiene programmes
- Integrating health and nutrition support as well as water for livestock in integrated WASH programmes
- Year-round health and hygiene behaviour change communication and social marketing programmes
- Advocacy and support to cholera vaccination campaigns for high-risk areas

One
WASH

Where are we now.....

- In consultation with Governments/UNICEF and other stakeholders at country level have prepared concept notes for most target countries (since mid-2017).
- One WASH, Phase 1 targets 5.5 Million people in 'high risk' settings over the next 4 to 5 years at an estimated 120,000 M USD.
- In consultation presently with both internal donors (Partner National Societies) and external donors.
- As donor interest gathers momentum will develop detailed country proposals.

ONE WASH INITIATIVE TRACK TABLE

Target country	Implementing National Society partnering with the IFRC	Target population	Indicative budget (USD)
Bangladesh	Bangladesh Red Crescent Society	400,000	10,000,000
Benin	Benin Red Cross	350,000	9,200,000
Burundi	Burundi Red Cross	180,000	5,300,000
Côte d'Ivoire	Red Cross Society of Côte d'Ivoire	450,000	9,400,000
Democratic Republic of Congo	Red Cross of the Democratic Republic of the Congo	550,000	12,600,000
Ghana	Ghana Red Cross Society	170,000	6,000,000
Haiti	Haiti Red Cross Society	170,000	3,000,000
Kenya	Kenya Red Cross Society	500,000	4,600,000
Liberia	Liberian Red Cross Society	120,000	4,800,000
Malawi	Malawi Red Cross Society	380,000	5,400,000
Nigeria	Nigerian Red Cross Society	200,000	7,350,000
Rwanda	Rwandan Red Cross	200,000	4,900,000
Somali	Somali Red Crescent Society	270,000	5,500,000
Uganda	Uganda Red Cross Society	440,000	6,400,000
United Republic of Tanzania	Tanzania Red Cross National Society	140,000	6,500,000
Yemen	Yemen Red Crescent Society	300,000	11,400,000
Zambia	Zambia Red Cross Society	500,000	3,900,000
Zimbabwe	Zimbabwe Red Cross Society	200,000	4,000,000
TOTAL ONE WASH		5,520,000	120,300,000
