Cholera outbreak Epi-curve, Ethiopia, 2022

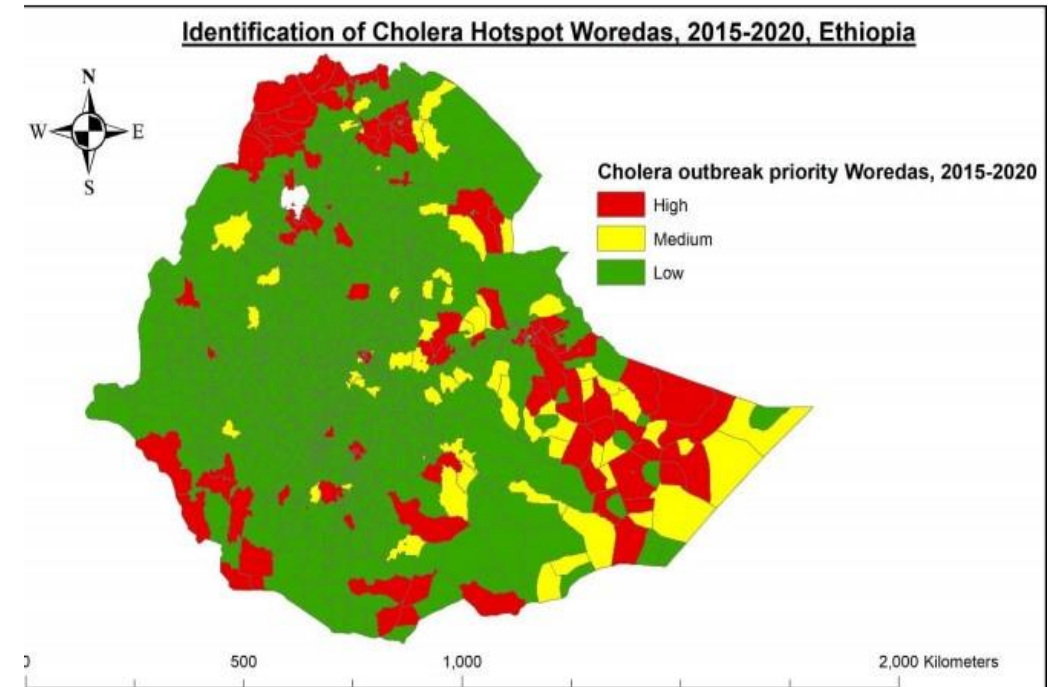

S/N	Region	Woreda	AR/10,000 ARP	CFR%	Admin Coverage for R1 %	Admin Coverage for R2 %
1	Somali	Kersa Dula	19.8	2.8	84	99
2		Harana Buluk	17.3	0	92	98.7
3		Dolo Mena	36.2	0.86	98	99
4	Oromia	Meda Wolabu	7.3	1.35	99	100

2. KEY ACHIEVEMENTS AND MAIN CHALLENGES

ACHIEVEMENTS AND GOOD PRACTICES	CHALLENGES AND SOLUTIONS
<p>Due to different reason there might be unused vaccine we used to redirection of the left over vaccines(OCV) with no additional operational cost request</p>	<p>Limited cold chain room which unable to encompasses all the requested dose Solution plan to ship and undertake the OCV vaccination campaign by round</p>
<p>Approval of National cholera control plan which will give high advocacy for the implementation, Budget plan and implementation plan to be finalized with June of 2022</p>	<p>Tight schedule of vaccination campaign on the national immunization program Solution try to entertain cholera has a high priority</p>
<p>Close collaboration with line ministries and Partners in the prepatation and implementation of the reactive campaign which will improve out performance for the future Preventive campaign of GTFCC</p>	<p>Late release of Operational cost (for reactive campaign) in which Reactive vaccination were conducted after long time of the outbreak detected Solution Redirection of operational cost to immediately conduct the vaccination when it arrives in the country</p>
<p>6,814,410 doses were approved by GTFCC on November 3, 2021</p>	<p>Long time of COVID-19 vaccination campaign which Cholera will not be entertained for some times Solution re schedule and entertain as per the protocol</p>

NCP

- On July 2019, high level governmental meeting was conducted Chaired by HE Dr Lia Tadesse and called up on the development National Cholera Elimination Plan (2021 – 2028)

3. PRIORITIES FOR 2022-23

- Finalizing the technical action plan by July, 2022 and disseminate to the relevant stakeholders and partners and national high level advocacy in presence of HE. Deputy PM
- Prepare high level advocacy meeting by higher official by inviting respective line ministries and partners by August, 2022
- Undertaking Preventive campaign when the vaccine arrived to the countries
Implimentation of 6.8 million doses of OCV (Preventive campaign)

Thank you

Together we can
