

UGANDA

- 2017-2022 NCP came to an end
 - Preventative Vaccination was done in 11 districts, reactive campaigns in 3 districts
 - No outbreaks reported in districts that had OCV
 - End-term review of previous NCP ongoing
 - Hotspot mapping slated for Nov 2022
 - Development of new NCP to follow
 - Approximately 6 million doses shall be required
- *guiding principles: Refugee hosting districts and population growth
