

6th October -

GLOBAL TASK FORCE ON CHOLERA CONTROL

9th Meeting of the Global Task Force on Cholera Control (GTCC) Working Group on Oral Cholera Vaccine

11 - 12 October 2022

Purpose

The annual working group meeting aims to bring together members, countries, research institutions, funders, vaccine manufacturers, and partners supporting development, emergency response, and field implementation to strengthen the Global Taskforce for Control Cholera partnership for the OCV pillar, to review progress on WG priorities, and provide an opportunity for partners and countries to engage and collaborate.

Aims

Through active discussions, the attending working group members will review progress on both working group (WG) 2022 activities and deployment of OCV to reach the Roadmap goals, propose concrete action to tackle challenges, report on priority research progress and identify any additional research needs, and identify WG priorities for 2023. Through working sessions, WG members will be invited to review and revise critical guidance documents.

Objectives of the meeting

- Review key obstacles experienced during 2022
- Celebrate partner and country successes
- Receive 5-year OCV forecasts from countries
- Review progress on research priorities
- Review progress on OCV WG guidance under development
- Discuss guiding principles for OCV allocation
- Ratify WG priorities for 2023

6th October -

Dates

- 11-12 October 2022

Venue

- The meeting will be PRESENTIAL, participants will have the possibility to join the GTFCC Secretariat in Veyrier-du-Lac, Les Pensières Conference Centre in Veyrier du Lac, France.

Participants

- The meeting will be attended by the members of the GTFCC OCV working group that includes technical partners, donor organizations, UN agencies, NGOs and members from countries affected by cholera.
