

# GLOBAL TASK FORCE ON **CHOLERA CONTROL**

## **Eleventh meeting of the GTFCC Working Group on Oral Cholera Vaccine October 7-8, 2024**

**Mombasa, Kenya**

### **Purpose**

The annual working group meeting aims to bring together members, countries, research institutions, funders, vaccine manufacturers, and partners supporting development, emergency response, and field implementation to strengthen the Global Taskforce for Control Cholera partnership for the OCV pillar, to review progress on WG priorities, and provide an opportunity for partners and countries to engage and collaborate on OCV-related issues.

### **Aims**

Through active discussions, the attending working group members will review progress of ongoing working group (WG) activities and OCV deployment, discuss and propose concrete actions to address current challenges, report on priority research progress and identify any additional research needs, and identify WG priorities for the next 12 months. Through working sessions, WG members will be invited to review and revise critical guidance documents.

### **Objectives of the meeting**

- Review progress against the Global Cholera Roadmap
- Celebrate partner and country successes
- Review the OCV supply and demand landscape, including how to forecast
- Discussion on maximizing use of OCV doses already in-country
- Discussion on equity in OCV use
- Review the issues of the campaigns implemented in 2024
- Review progress on OCV policy and research during 2023-2024
- Ratify OCV WG priorities for 2025 and how it contributes to Global Cholera Roadmap

### **Participants**

The meeting will be attended by the members of the GTFCC OCV working group that includes technical partners, donor organizations, UN agencies, NGOs and members from countries affected by cholera
