

Identification of PAMIs for cholera elimination

Transcript of online course

Course introduction

Slide 1

Welcome to this GTFCC online course on the identification of Priority Areas for Multisectoral Interventions, PAMIs, for cholera elimination.

Slide 2

This module provides an overview of the course, and will help you get ready to take this course.

Slide 3

This course is for technical professionals directly involved in PAMI identification for cholera elimination. For example, epidemiologists, data managers, workshop facilitators, report writers, and so on.

Slide 4

After completing all modules of this course, you will be able to:

- Describe the method and the steps to identify PAMIs for cholera elimination;
- Understand what the “vulnerability index” is;
- Describe how to prepare the data for the PAMI analysis;
- Understand how to use the PAMI Excel tool;
- Explain the objectives and the recommended format of the PAMI stakeholder validation;
- And explain how to document PAMI identification and how to request an external review.

Slide 5

There are five modules in this course.

In Module 1, we will go through the method to identify PAMIs for cholera elimination.

In Module 2, we will explain how to prepare the data for the PAMI analysis.

In Module 3, we will show you how to use the PAMI Excel tool which automatizes all calculation.

In Module 4, we will describe how to organize a successful PAMI stakeholder validation.

Lastly, in Module 5, we will explain how to document PAMI identification and how to request an external PAMI review.

This course takes about 1 hour and a half to complete.

Slide 6

Before taking this course, we strongly recommend you first take the GTFCC introduction course on PAMI identification - if you have not already done so.

Slide 7

Feel free to navigate this course at your own pace. You may take the entire course at once or you may decide to go through each module at different times as PAMI identification is progressing in your country.

Slide 8

Before starting this course, take a moment to download the material you will need to have on hand to follow the course.

All material is available on a dedicated GTFCC webpage at <https://tinyurl.com/PAMlelimination>.

Make sure to download:

- The guidance document on the identification of PAMIs for cholera elimination;
- The PAMI Excel tool;
- The user guide of the Excel tool;
- The PAMI data model template;
- And the template report on the identification of PAMIs for elimination.

You can also access each document by scanning the QR codes at the bottom of your screen.

Slide 9

For any questions or to request technical assistance to identify PAMIs, please contact the GTFCC Secretariat at GTFCCsecretariat@who.int; we are here to support you.

Slide 10

We have now completed this brief introduction.
