

PAMIs for cholera control

Introduction

GLOBAL TASK FORCE ON
CHOLERA CONTROL

PAMIs for cholera control

Course
overview

Who is this course for?

➡ Technical professionals

Directly involved in PAMI identification for cholera control
(e.g., epidemiologists, data managers, workshop facilitators, report writers, etc)

What will you learn?

- ➔ **Method** and **steps** to identify PAMIs for control
- ➔ What the “**priority index**” is
- ➔ How to **prepare the data**
- ➔ How to use the **PAMI Excel tool**
- ➔ Objectives & format of the **stakeholder validation**
- ➔ How to **document** PAMI identification and request a **review**

What are the modules?

25'

Module 1
Method

20'

Module 2
Data
preparation

15'

Module 3
PAMI
Excel tool

15'

Module 4
Stakeholder
validation

10'

Module 5
Document
& Review

When to take this course?

Completing the GTFCC online course
Identification of PAMIs is a prerequisite

<https://tinyurl.com/coursePAMlintro>

How to navigate this course?

➡ Take this course at your own pace

- You can take the entire course **at once**
or
- You can take the different modules **at different times**
as PAMI identification progress in your country

Template report on the identification of PAMIs
for cholera control

- Background**
 - Information on any previous identification of PAMIs (method, analysis period)
 - Information on MCP status and targets (past, current, and future) in the country
 - Concise description of the cholera epidemiological situation in the country in recent years (up to last 10 years)
 - Concise description of cholera surveillance system
 - Concise description of cholera testing strategy
 - Justification for using the method "PAMIs for cholera control" (i.e., provide percentage of MCP operational geographic units with cholera outbreaks cumulatively over the past five years)
- Methods**
 - Details

Get additional support

**For any question or for technical assistance to identify PAMIs,
contact the [GTFCC Secretariat](mailto:GTFCCsecretariat@who.int)**

GTFCCsecretariat@who.int
