

GLOBAL TASK FORCE ON
CHOLERA CONTROL

GTCC recommendations

SAMPLE COLLECTION AND TESTING WITH RAPID DIAGNOSTIC TESTS FOR CHOLERA FOR HEALTH CARE WORKERS

V1.0 November 2024

This course was developed by the Laboratory Working Group
of the Global Task Force on Cholera Control.

The development of the materials was coordinated by the World Health Organization.

The development of the materials was supported by Cooperative Agreement number GH19-1967 GH002225, funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention or the Department of Health and Human Services.

COURSE OUTLINE

MODULE 1

Introduction to cholera and testing for cholera

MODULE 2

Sample collection, preparation and transport for cholera

MODULE 3

Cholera rapid diagnostic tests (RDTs)

Target audience

- Rapid response teams and local health authorities

- Nurses, medical doctors, other primary healthcare workers

- Laboratory personnel

Anyone who is involved in sample collection, in sample preparation for transport and shipment, in performing Rapid Diagnostic Tests (RDTs) or anyone responsible for the training of staff on these topics.

For a general overview on cholera including
prevention and control principles:
